

This is my objection to NAB'S petetion 04-160. I think in a FREE AMERICA we as AMERICAN'S SHOULD BE ALLOWED TO PAY and listen to what we want! The whole reason I went to XM SATELLITE was the commercial free broadcast. The FM stations are adding more and more commercial's to improve their bottom line. They did it to themselves! Who are they to tell me what I can listen to, when I am the one paying for it and paying my way in multiple taxes as a middle class american. I am a truck driver and I benifit greatly from the weather, traffic, and the COMMERICAL FREE CHANNELS! This product provides me with variety and quality that I cannot get on FM radio, (even though it's free). I am sick and tired of listening to multiple commercial's with very little music and traffic put in. Please reject this petition 04-160! Let's keep America FREE and let Americcan's listen to what they want! Respectfully, John R. Smith Jr.
